Intro (4 bars E- on guitar)

Verse 1

A strange form of life
Kicking through windows, rollin on yards
Heading in loved ones, triggering odds.
A strange one

Verse 2

And a hard way to come
Into a cabin into the weather
Into the path, walking together
A hard one

Wordless chorus

Verse 3

And the softest lips ever
twenty-five years of waiting to kiss them
Smiling and waiting to bend down and kiss twice
And the softest lips

Verse 4

In a dark little room across the nation
you found myself racing
forgetting the strange and the hard and the soft kiss
in the dark room.

Verse 5

(repeat verse 1)

Wordless chorus
