Verse 1 & 2

The sun shone high those few summer days
Left us in a song, wide-eyed haze
It shone like gold, it shone like gold.
But just as the moon it shines straight
So dawn goes down today
No gold can stay, no gold can stay

Chorus

What if our hard work ends in despair?
What if the road won't take me there?
Oh I wish for once we could stay gold.
What if to love and be loved's not enough?
What if I fall and can't bear to get up?
Oh I wish for once we could stay gold, we could stay gold.

Verse 3 & 4

We're on our way through rugged land
Top of that mountain we wanted to stand
With hearts of gold, with hearts of gold.
But there is only forward, no other way
Tomorrow was your hope at the end of the day
And gold turns gray, and gold turns gray

Chorus

Bridge

All of my dreams, they fall and form a bridge
Of memories where I can get back
All of my dreams, they fall and form a bridge
Of memories where I can't get back to you

Chorus (more acapella)

We could stay gold
Stay gold
