Verse 1 & 2

And I was a boy from school
Helplessly held in all the rules
And there was a boy at school
Hopelessly wrestling all his fools
And there was a girl at school
Blaming all the words she learned from home
Nothing could keep her a child
Long hours don't you know we try

Chorus

We try but we do have law
We try but we don't belong
We try but we do have law
We try but we don't belong

Verse 3 & 4

Now I met you on the street
Heartlessly breaking rules we meet
Lives are found and loves are lost
Say goodbye to nothing, everything cost
Now I find you on my street
Breaking rules hopelessly we meet
Lives are found but loves are lost
Say goodbye to everything, nothing cost

Chorus

Bridge (1x instrumental)

Bridge (1x vocal)

I got, I got lost (You said this was the way back)
I got, I got lost (You said this was the way back)
I got, I got lost (You said this was the way back)

Chorus (a capella/minimal guitar)
