### Verse 1

Oh, when I lift you up you feel like 100x yourself.  
I wish everybody knew what's so great about you.  
Oh, but your love is such a swamp  
You don't think before you jump  
And I said I wouldn't get sucked in, Ah.

### Chorus

This is the last time.

### Verse

Oh, don't tell anyone I'm here, I've got Tylenol and beer  
I was thinking that you'd call somebody closer to you  
Oh, but your love is such a swamp  
You're the only thing I want  
And I said I wouldn't cry about it, Ah.  
This is the last time (x2)

### Verse

We were so under the prime, we were so vacant and kind  
We were so under the prime, we were so vacant  
We were so under the prime, we were so out of our minds  
We were so under the prime, we were so vacant

### Repeat Verse 1 with Chorus chords

### Bridge

I won't be vacant anymore, I won't be waiting anymore  
I won't be faking anymore, I won't be waiting anymore  
(repeat x3)

### Ending

Jenny I am in trouble, can't get these thoughts out of me  
Jenny I'm seeing double, I know this changes everything

It takes a lot of rain in the cup  
It takes a lot of pain to pick me up (x2)

Baby you gave me pain and tears  
Baby you left me sad and high
