

# West My Friend – Missing You

**Verse & Chorus** x2 **End Verse**

## Bridge A

## Bridge B

## Final Choruses

### Verse 1

In the densest cities in the busiest parts  
 Sometimes the traffic noise gets so loud  
 Amidst the clap and thunder of SUVs  
 There isn't room for romance  
 Two birds can't even hear the love calls they're singing out

### Chorus 1

I don't know what I would do if that was me missing you  
 Singing my heart out but never getting through  
 If that was me missing you, missing you

### Verse 2

On the tallest mountains at the highest peaks  
 Sometimes compassion is thinner than air  
 Amidst a sudden flurry of summer snow  
 She focuses on the goal  
 And doesn't see the stumbled footsteps she passes by

### Chorus 2

...Reaching the summit but never knowing the truth...

### Bridge

In the constellations in every person's night sky  
 Some people say that our fate is inscribed  
 Do you believe that our fate is inscribed?  
 And in the horoscope that he read that day  
 It said the same, but it wouldn't give him a name  
 Above his head, as he read shot a shooting star

### Chorus 3

...Shooting through life but never catching my cue...

### Chorus 4

If that was me missing you  
 Singing my heart out but never getting through  
 If that was me missing you, missing you.
