

Wintersleep – Avalanche

Verse plucking

Verse overlay part

Chorus

Verses

I like long drives
The radio
Is on all night
'Cause you say so

Lying beside
Your beautiful bones
Candlelight
And heaving tones

Chorus

This avalanche of love and skin
Collides, conquers and collapses
I breath your breath
I smell your skin
I taste you saddened sentiments

Chorus

This avalanche of love and skin
Collides, conquers and collapses
I breath your breath
I smell your sin
I taste your saddened sentiments

This avalanche of love and skin
There'll be nothing left after this.
